👤 Muhammad Talha 📁 Portfolio

### PROFILE

As a **MERN stack** and **Next.js** developer, I create dynamic web applications with **React**, **Node.js**, and **MongoDB**, specializing in building responsive, user-friendly interfaces. My focus is on delivering seamless functionality and exceptional user experiences.

### PROFESSIONAL EXPERIENCE

#### MERN Stack Developer

AccellionX 🌐

01/2025 – present | Lahore, Pakistan

- Built full-stack apps with MERN stack, PostgreSQL, and secure login (JWT, OAuth).
- Designed responsive UIs with React, Next.js, and deployed on Vercel and AWS.

#### Junior React Developer

DATALYTICS 🌐

08/2024 – 12/2024 | Lahore, Pakistan

- Collaborated on front-end features in React and developed reusable components.
- Integrated REST APIs, participated in code reviews, and optimized performance.

#### Social Media Operator & Web Developer

All Pakistan Chinese Overseas Youth Federation 🌐

11/2022 – 08/2024 | Islamabad, Pakistan

- Managed and updated the website, handled social media, and created content.
- Built pages with Elementor, WP Bakery, and Gutenberg, applying SEO strategies.

#### WordPress Developer (Remote)

Dolphin Communication Art & Culture Welfare Foundation 🌐

10/2022 – 08/2024 | Rawalpindi, Pakistan

- Developed and maintained a WordPress site with strong SEO integration.
- Managed social media content and collaborated on high-quality visuals.

### PROJECTS

CAT Proxy – Next.js, Prisma 🌐

Trading Dashboard – React.js

MetaBlog – React, Node.js
